Weekly Coal Production

Production for Week Ended:
November 10, 1990

Preface

The *Weekly Coal Production (WCP)* provides weekly estimates of U.S. coal production by State. Supplementary data are usually published monthly in two supplements: the Coal Exports and Imports Supplement and the Domestic Market Supplement. The Coal Exports and Imports Supplement contains detailed monthly data on U.S. coal and coke exports and imports. The Domestic Market Supplement contains detailed monthly electric utility coal statistics, by Census Division and State, for generation, consumption, stocks, receipts, sulfur content, prices, and the origin and destination of coal shipments. This supplement also contains summary-level, monthly data for all coal-consuming sectors on a quarterly basis.

Preliminary coal production data are published quarterly, based on production data collected using Form EIA-6, "Coal Distribution Report." Based on 1988 data, the coal production estimation error for a quarter at the national level (i.e., the difference between the sum of the weekly estimates for a quarter and the quarterly EIA-6 preliminary data) ranges from 1 percent to 4 percent.

Final coal production data are published annually, based on the EIA-7A coal production survey. Based on 1988 data, the revision error for a quarter at the national level (i.e., the difference between the EIA-6 preliminary data and the EIA-7A final data) ranges from 0.02 percent to 0.08 percent.

This publication is prepared by the Coal Division; Office of Coal, Nuclear, Electric and Alternate Fuels; Energy Information Administration (EIA) to fulfill its data collection and dissemination responsibilities as specified in the Federal Energy Administration Act of 1974 (P.L. 93-275) as amended. *Weekly Coal Production* is intended for use by industry, press, State and local governments, and consumers. Other publications that may be of interest are the quarterly *Coal Distribution*, the *Quarterly Coal Report*, *Coal Production 1988*, and *Coal Data: A Reference*.

This publication was prepared by Wayne M. Watson and Michelle D. Bowles under the direction of Mary K. Paull and Noel C. Balthasar, Chief, Data Systems Branch. Questions on energy statistics should be directed to the National Energy Information Center (NEIC) at 202/586-8800.

ng November 16, 1990

Summary

U.S. coal production in the week ended November 10, 1990, as estimated by the Energy Information Administration, totaled 21 million short tons, about the same as in the previous week, and in the comparable week

in 1989. Coal production east of the Mississippi River totaled 13 million short tons, and production west of the Mississippi River totaled 8 million short tons.

(Thousand Short Tons)

Region and State	Week Ended		
	11/10/90	11/03/90	11/11/89
Bituminous Coal¹ and Lignite			
East of the Mississippi	13,044	12,895	12,874
Alabama	621	602	614
Illinois	1,217	1,147	1,214
Indiana	841	907	753
Kentucky	3,540	3,377	3,644
Kentucky, Eastern	2,542	2,470	2,704
Kentucky, Western	998	907	940
Maryland	62	60	70
Ohio	744	729	732
Pennsylvania Bituminous	1,574	1,590	1,444
Tennessee	143	142	149
Virginia	890	992	844
West Virginia	3,414	3,350	3,411
West of the Mississippi	8,336	8,437	8,248
Alaska	31	31	44
Arizona	263	263	250
Arkansas	2	2	2
Colorado	428	408	414
Iowa	8	8	7
Kansas	25	25	25
Louisiana	64	62	92
Missouri	62	62	77
Montana	785	768	813
New Mexico	456	557	538
North Dakota	647	633	606
Oklahoma	37	39	34
Texas	1,198	1,197	1,111
Utah	479	458	470
Washington	108	108	109
Wyoming	3,743	3,818	3,654
Bituminous¹ and Lignite Total	21,380	21,332	21,122
Pennsylvania Anthracite	62	84	68
U.S. Total	21,442	21,415	21,190

¹Includes subbituminous coal.

Notes: 1990 data are preliminary. Totals may not equal sum of components due to independent rounding.

—“An investment in knowledge pays the best interest.”—

Your Government has published thousands of books to serve America. And now the Government Printing Office has put together a catalog of the Government's "Bestsellers"—almost a thousand books in all. Books like *The Space Shuttle at Work*, *Starting a Business*, *U.S. Postage Stamps*, and *National Parks Guide and Map*. I daresay there's even information on one of my favorite subjects—printing.

Find out what the Government has published for you—send for your free catalog. Write—

AFTER THE DECLARATION OF INDEPENDENCE OUR FOUNDING FATHERS WROTE SOMETHING EVEN MORE IMPORTANT.

Ten years after the signing of the Declaration of Independence our founding fathers created what historians have called the greatest single document struck off by the hand and mind of man.

Our founding fathers created the Constitution of the United States.

For the first time in history, power was granted by the people to the government, and not by the government to the people.

The freedom unleashed by the Constitution allowed Americans to develop their talents and abilities to the fullest. And attain what is now known the world over as the *American Dream*.

As we commemorate the Bicentennial of the Constitution, there is no better way for you as an American to reaffirm the principles for which our country stands than to learn more about the Constitution.

The words we live by.

THE CONSTITUTION

The words we live by
